

Year 3 forward (PhD students)

3 hours of refresher training. This can be met by:

- Completing new CITI modules (45 minutes each);
- Attending additional face-to-face workshops or discussions (offered by the Graduate School, the CMB program, the student's research mentor/lab, or other departments-need to make sure attendance is recorded; students cannot update ABILITY themselves)
- Research-specific RCR activities (can include animal and/or human subjects training).
- The Graduate School offers many [additional resources](#) that can be used to fulfill these requirements.
